SUMMARY

Detail-oriented and passionate Full Stack Developer with hands-on experience in developing scalable web applications using React, Spring Boot, and MySQL. Proficient in frontend and backend development, REST API integration, JWT-based authentication, and deployment. Proven expertise in delivering real-time features like live chat, notifications, dashboards, and secure role-based systems. Strong collaboration skills with exposure to CI/CD pipelines, testing, and UI/UX tools. Personable and adaptable with keen interest in software development, possessing foundational knowledge in computer science and coding principles. Well-versed in Java and ReactJS, with proven ability to quickly learn new technologies and frameworks. Dedicated to delivering high-quality code and contributing to innovative software projects.

- Node.js
- MySQL
- Oracle
- MongoDB
- H2 Database
- Visual Studio Code
- IntelliJ
- Eclipse
- Postman

EXPERIENCE

➤ *Associate Software Engineer* Jan 2025- Present
Webtrex Software services Hyderabad

- Developed full-stack modules using React, Spring Boot, and MySQL.
- Implemented secure JWT token-based authentication and role-based access using Spring Security.
- Contributed to event management, subscription systems, and real-time payment for raosbmc.com.
- Created dynamic dashboards with data visualization and filtering.
- Participated in CI/CD deployment using CloudPanel, Docker, and Putty.
- Participated in sprint planning sessions by estimating task complexity and prioritizing work items.
- Gathered requirements and performed gap analysis through design workshops with users.

➤ *Java Developer* Oct 23- Jan 2025
Young Minds technology Solutions Tirupati

- Worked on features in bnrda.com like user/employee management, API integrations, and live chat & notifications.
- Built CRUD modules and order management for mm.bnrda.com, covering lead management and customer records.

- Jira
- Docker
- CloudPanel
- Figma
- REST APIs
- JWT Authentication
- CI/CD
- Troubleshooting
- API design and integration
- Front-end frameworks
- Software development
- SDLC
- Build releases
- Requirements gathering
- New employee mentoring

EDUCATION

RTMNU

2014-219

B.E In Mech Engg

Languages Known

English, Hindi, Marathi

- Participated in testing, debugging, and using Jira for issue tracking.
- Reviewed code and debugged errors to improve performance.
- Streamlined development processes by employing Agile methodologies and participating in Scrum meetings.
- Contributed to the successful completion of projects by meeting tight deadlines and delivering high-quality code.

KEY PROJECTS

- BNRDA – <https://bnrda.com> - Employee and department management, real-time chat & alerts, dynamic dashboard, API integrations. CI/CD deployment using CloudPanel, Putty, testing tools and Agile boards (Jira).
