PROFESSIONAL SUMMARY

Detail-oriented and results-driven Full Stack Developer with 2.7+ years of hands-on experience building scalable web applications using React, Spring Boot, and MySQL. Serving as SME for module design and driving key technical decisions in cross-functional environments. Proficient in JWT-based authentication, role-based access control, REST API integration, microservices architecture, and CI/CD deployment. Proven track record of mentoring junior developers, leading sprint ceremonies, and delivering production-grade features on time. Strong communicator with expertise in stakeholder collaboration, conflict resolution, and Agile delivery.

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Webtrex Software Services, Hyderabad **Jan 2025 – Present** ▶ **Served as SME for subscription and event management modules, owning end-to-end design, development, and deployment decisions.**

- ▶ Led sprint ceremonies including planning, retrospectives, and daily standups for a team of 4 developers, improving on time delivery by 25%.
- ▶ Designed and developed full-stack modules for raosbmc.com using React, Spring Boot, and MySQL; implemented JWT based authentication and role-based access via Spring Security.
- ▶ Built dynamic dashboards with real-time data visualization, filtering, and role-specific views for event and employee management.
- ▶ Optimized API response time by 30% and reduced database query load through indexing, query restructuring, and pagination strategies.
- ▶ Participated in CI/CD deployment pipelines using CloudPanel, Docker, and Putty; maintained deployment documentation and runbooks.
- ▶ Mentored 2 junior developers through code reviews and pair programming sessions, improving team code quality and reducing bug rate.
- ▶ Collaborated with cross-functional stakeholders to gather requirements, perform gap analysis, and translate business needs into technical specifications.
- ▶ Contributed to microservices-based architecture design for the RaosEdu CRM platform, ensuring modular, maintainable, and scalable components.

Java Developer | Young Minds Technology Solutions, Tirupati **Oct 2023 – Jan 2025** ▶ **Acted as technical lead on bnrda.com feature development including user/employee management, live chat, real-time notifications, and API integrations.**

- ▶ Built and maintained CRUD modules and order management workflows for mm.bnrda.com covering lead management and customer records.
- ▶ Delivered 3 production-ready modules ahead of schedule, contributing to a 20% reduction in issue backlog tracked via Jira Agile sprints.
- ▶ Collaborated with stakeholders to gather and translate business requirements into technical specifications and implementation plans.
- ▶ Conducted code reviews, identified performance bottlenecks, and resolved critical bugs — improving system stability and response time.
- ▶ Followed Agile/Scrum methodologies including sprint planning, backlog grooming, and daily standups.

TECHNICAL SKILLS

Languages Java, Java 8, Groovy, JavaScript, TypeScript, HTML5, CSS3

Frontend React, Angular, Bootstrap, Tailwind CSS, Material UI, Ant Design, jQuery

Backend Spring Boot, Spring Security, Spring Data JPA, Hibernate, Node.js, Express.js **Databases**

MySQL, Oracle, MongoDB, H2 Database

DevOps / Tools Docker, CloudPanel, Jenkins, Kubernetes CI/CD, GIT, SSH, SSL, GCP, Putty, Postman, Jira, IntelliJ, VS

Code,,Figma **Architecture** Microservices, REST APIs, JWT Authentication, System Design, Scalable App Development

Professional Stakeholder Communication, Conflict Resolution, Team Facilitation, Mentoring, Requirements Gathering, SDLC, Agile/Scrum, Technical Documentation

KEY PROJECTS

BNRDA <https://bnrda.com>

- Employee/department management, real-time chat & alerts, dynamic dashboard, API integrations. CI/CD deployment using CloudPanel, Putty, Jira.

Rao's Business Marketing Company <https://raosbmc.com>

- Event & employee management, membership subscriptions, testimonial systems, and payment gateway integrations. Role-based access, JWT security.

RaosEdu – Educational Commission CRM

- Built using microservices architecture with optimized API design. Acted as SME for secure module development ensuring high performance, reliability, and maintainability.

EDUCATION

B.E. in Mechanical Engineering — RTMNU **2014 – 2019** 16 years of full-time education | Languages: English, Hindi, Marathi
